Medical certificate

NAME : [REDACTED]

DOB : 5 APR1996

PID : 114620

# Traumatic cervical symptoms

# Whiplash associated disorders

# Left upper arm bruise

# Left thigh bruise

This is to certify that I have examined [REDACTED] on 2 DEC 2021. She came our clinic with a few hours history of left side body pain, and back pain after the accident.

Judging from P/E and PH, I diagnosed as stated above and prescribed medication.

If you have any comments or questions, please forward them to us.

# Suspected PTSD  
# Anxiety disorder

This is to certify that she is examined at NIC on 2 DEV 2021.  
She witnessed a suspicious person invading when she tried to open her workplace chateau school door on 2 DEC 2021.  
After the accident, she had been so anxious and agitated by fear and couldn't think about anything. She also felt empty and admits hyperventilation and loss of appetite.  
Judging from her medical history and physical examinations, she was diagnosed with the stated above. The in charge doctor referred her to a Psychiatrist in Red cross medical center for consultation.
